It's a rare privilege to visit Colorado—to view its rugged grandeur, its almost bottomless canyons. It's a travel-mistake to overlook such scenery as this. You need not. The Burlington has planned your scenic pleasure for you. Its grand circle tour to the Pacific Coast is so arranged that you are wide-awake when you go thru Denver, Rocky Mountain National Park—Estes Park, Colorado Springs, the Pikes Peak Region, Royal Gorge and Salt Lake; then Los Angeles, both expositions; two days on the ocean (meals and berth included to Burlington passengers), San Francisco to Portland; then you visit Tacoma, Seattle, Spokane; and come back by way of either Glacier National Park or Yellowstone Park. Positively no other tour in the world like this—so filled with pleasurable excitement, and satisfaction.

Tickets on sale daily. Let us talk this trip over with you—make suggestions on your desires. We can plan to meet your perfect satisfaction—will supply you with beautiful, complete descriptive literature, maps, etc. If you are going to the Pacific Coast this year you simply cannot afford to overlook the special advantages offered by Burlington Tours.

When You Build

Why not build for permanence? Why use wood which decays, expands, shrinks under varying weather conditions? Most of all, why lose 40 per cent of the feed value of your crop when you can save it all? A silo will save that 40 per cent.

A DIAMOND CONCRETE STAVE SILO

will save work, worry, trouble, fire insurance, labor costs. Costs but little more to build, than wood, keeps silage like a jug, won't shrink and fall to pieces in dry weather, never decays, and
